

**MAGNUM**

**STS212-3**

**2.5FT ALUMINUM SAWHORSE  
STEP-UP BENCH**

TEXAS BORN. MADE IN CHINA.

**WARNING**

**PROPER SELECTION**

1. Refer to **NOTICE** label for Highest Standing Level, Working Load, and contact information.
2. Select Step Size to reach work without climbing above the Highest Standing Level or overreaching.
3. Weight of user, tools, and materials shall not exceed Working Load.
4. Use a fiberglass step if working with or around electricity.

**INSPECTION**

1. Inspect before use. Do not use steps with missing, loose, damaged, or non-operating parts.
2. Make sure locks are in good working order.
3. Replace heavily worn feet and illegible labels.
4. Contact manufacturer for parts.
5. Keep step clean and free of slippery substances.

**TRANSPORT AND STORAGE**

1. Secure step when transporting to avoid excessive wear or loading at vehicle support points.
2. Store step where protected from unsafe materials, impact, or corrosion damage.

**WARNING**

**PROPER SET-UP & USE**

Do not over-reach. Keep body centered on step.

Use care when on step and when pushing and pulling.

Lock spreaders on both sides.

Set all four feet of step on firm level surface.

1. Do not use step if your judgement or balance is reduced by age, health, alcohol, or drugs.
2. Face forward when climbing up or down step.
3. Keep step close to work. Move step as needed. Do not walk or move step while standing on it.
4. Stand only on steps or platform.
5. Do not climb onto or off step from side or above, unless it is secured from movement.
6. Wear clean, slip-resistant work shoes.
7. Do not let any part of step contact electrical wires.

**DANGER**

Follow **ALL** instructions on this step. Falling from step may result in injury or death.

**NOTICE**
